

**MARYLAND ADVANCE DIRECTIVE**

**PLANNING FOR FUTURE HEALTH CARE DECISIONS**

**A guide to Maryland Law on Health Care Decisions**

**(Forms Included)**

**State of Maryland Office of the Attorney General**

Dear Fellow Marylander:

I am pleased to send you an advance directive form that you can use to plan for future health care decisions. The form is *optional*; you can use it if you want or use others, which are just as valid legally. If you have any legal questions about your personal situation, you should consult your own lawyer. If you decide to make an advance directive, be sure to talk about it with those close to you. The conversation is just as important as the document. Give copies to family members or friends and your doctor. Also make sure that, if you go into a hospital, you bring a copy. Please *do not* return completed forms to this office.

Life-threatening illness is a difficult subject to deal with. If you plan now, however, your choices can be respected and you can relieve at least some of the burden from your loved ones in the future. You may also use another enclosed form to make an organ donation or plan for arrangements after death.

Here is some related, important information:

- If you want information about Emergency Medical Services (EMS) Palliative Care/Do Not Resuscitate (DNR) Orders, please contact the Maryland Institute for Emergency Medical Services Systems directly at (410) 706-4367. An EMS/DNR Order is a *physician's* instruction to emergency medical personnel (911 responders) to provide comfort care instead of resuscitation. The EMS/DNR Order can be found on the Internet at: <http://www.miemss.org>. From that page, click on "EMS Forms."
- The Maryland Department of Health and Mental Hygiene makes available an advance directive focused on preferences about mental health treatment. This can be found on the Internet at: <http://www.dhmh.state.md.us/mha>. From that page, click on "MHA Forms."

I hope that this information is helpful to you. **I regret that overwhelming demand limits us to supplying one set of forms to each requester.** But please feel free to make as many copies as you wish. Additional information about advance directives can be found on the Internet at: <http://www.oag.state.md.us/healthpol/advancedirectives.htm>.

## **HEALTH CARE PLANNING USING ADVANCE DIRECTIVES**

*Optional Form Included*

### ***Your Right To Decide***

Adults can decide for themselves whether they want medical treatment. This right to decide to say yes or no to proposed treatment(s) applies to treatments that extend life, like a breathing machine or a feeding tube. Tragically, accident or illness can take away a person's ability to make health care decisions. But decisions still have to be made. If you cannot do so, someone else will. These decisions should reflect your own values and priorities.

A Maryland law called the Health Care Decisions Act says that you can do health care planning through "advance directives." An advance directive can be used to name a health care agent. This is someone you trust to make health care decisions for you. An advance directive can also be used to say what your preferences are about treatments that might be used to sustain your life.

The State offers a form to do this planning, included with this pamphlet. The form as a whole is called "Maryland Advance Directive: Planning for Future Health Care Decisions." It has three parts to it: Part I, Selection of Health Care Agent; Part II, Treatment Preferences ("Living Will"); and Part III, Signature and Witnesses. This pamphlet will explain each part.

The advance directive is meant to reflect your preferences. You may complete all of it, or only part, and you may change the wording. You are *not* required by law to use these forms. Different forms, written the way you want, may also be used. For example, one widely praised form, called *Five Wishes*, is available (for a small fee) from the nonprofit organization Aging With Dignity. You can get information about that document from the Internet at [www.agingwithdignity.org](http://www.agingwithdignity.org) or write to: Aging with Dignity, P.O. Box 1661, Tallahassee, FL 32302.

This optional form can be filled out without going to a lawyer. But if there is anything you do not understand about the law or your rights, you might want to talk with a lawyer. You can also ask your doctor to explain the medical issues, including the potential benefits or risks to you of various options. You should tell your doctor that you made an advance directive and give your doctor a copy, along with others who could be involved in making these decisions for you in the future.

In Part III of the form, you need two witnesses to your signature. Nearly any adult can be a witness. If you name a health care agent, though, that person may not be a witness. Also, one of the witnesses must be a person who would not financially benefit by your death or handle your estate. You do not need to have the form notarized.

This pamphlet also contains a separate form called "After My Death." Like the advance directive, using it is optional. This form has four parts to it: Part I, Organ Donation; Part II, Donation of Body; Part III, Disposition of Body and Funeral Arrangements; and Part IV, Signature and Witnesses.

---

Once you make an advance directive, it remains in effect unless you revoke it. It does not expire, and neither your family nor anyone except you can change it. You should review what you've done once in a while. Things might change in your life, or your attitudes might change. You are free to amend or revoke an advance directive at any time, as long as you still have decision-making capacity. Tell your doctor and anyone else who has a copy of your advance directive if you amend it or revoke it.

If you already have a prior Maryland advance directive, living will, or a durable power of attorney for health care, that document is *still valid*. Also, if you made an advance directive in another state, it is valid in Maryland. You might want to review these documents to see if you prefer to make a new advance directive instead.

### **Part I of the Advance Directive: Selection of Health Care Agent**

You can name anyone you want (except, in general, someone who works for a health care facility where you are receiving care) to be your health care agent. **To name a health care agent, use Part I of the advance directive form.** (Some people refer to this kind of advance directive as a “durable power of attorney for health care.”) Your agent will speak for you and make decisions based on what you would want done or your best interests. You decide how much power your agent will have to make health care decisions. You can also decide when you want your agent to have this power right away, or only after a doctor says that you are not able to decide for yourself.

You can pick a family member as a health care agent, but you don't have to. Remember, your agent will have the power to make important treatment decisions, even if other people close to you might urge a different decision. Choose the person best qualified to be your health care agent. Also, consider picking one or two back-up agents, in case your first choice isn't available when needed. Be sure to inform your chosen person and make sure that he or she understands what's most important to you. When the time comes for decisions, your health care agent should follow your written directions.

We have a helpful booklet that you can give to your health care agent. It is called “*Making Medical Decisions for Someone Else: A Maryland Handbook*.” You or your agent can get a copy by visiting: <http://www.oag.state.md.us>, then clicking on “Guidance for Health Care Proxies.” You can also request a copy by calling 410-576-7000.

The form included with this pamphlet does *not* give anyone power to handle your money. We do not have a standard form to send. Talk to your lawyer about planning for financial issues in case of incapacity.

### **Part II of the Advance Directive: Treatment Preferences (“Living Will”)**

You have the right to use an advance directive to say what you want about future life-sustaining treatment issues. You can do this in Part II of the form. If you both name a health care agent and make decisions about treatment in an advance directive, it's

---

important that you say (in Part II, paragraph G) whether you want your agent to be strictly bound by whatever treatment decisions you make.

Part II is a living will. It lets you decide about life-sustaining procedures in three situations: when death from a terminal condition is imminent despite the application of life-sustaining procedures; a condition of permanent unconsciousness called a persistent vegetative state; and end-stage condition, which is an advanced, progressive, and incurable condition resulting in complete physical dependency. One example of end-stage condition could be advanced Alzheimer's disease.

## ***FREQUENTLY ASKED QUESTIONS ABOUT ADVANCE DIRECTIVES IN MARYLAND***

### **1. Must I use any particular form?**

No. An optional form is provided, but you may change it or use a different form altogether. Of course, no health care provider may deny you care simply because you decided not to fill out a form.

### **2. Who can be picked as a health care agent?**

Anyone who is 18 or older except, in general, an owner, operator, or employee of a health care facility where a patient is receiving care.

### **3. Who can witness an advance directive?**

Two witnesses are needed. Generally, any competent adult can be a witness, including your doctor or other health care provider (but be aware that some facilities have a policy against their employees serving as witnesses). If you name a health care agent, that person cannot be a witness for your advance directive. Also, **one** of the two witnesses must be someone who (i) will not receive money or property from your estate and (ii) is not the one you have named to handle your estate after your death.

### **4. Do the forms have to be notarized?**

No, but if you travel frequently to another state, check with a knowledgeable lawyer to see if that state requires notarization.

### **5. Do any of these documents deal with financial matters?**

No. If you want to plan for how financial matters can be handled if you lose capacity, talk with your lawyer.

### **6. When using these forms to make a decision, how do I show the choices that I have made?**

Write your **initials** next to the statement that says what you want. **Don't** use checkmarks or X's. If you want, you can also draw lines all the way through other statements that do not say what you want.

---

**7. Should I fill out both Parts I and II of the advance directive form?**

It depends on what you want to do. If all you want to do is name a health care agent, just fill out Parts I and III, and talk to the person about how they should decide issues for you. If all you want to do is give treatment instructions, fill out Parts II and III. If you want to do both, fill out all three parts.

**8. Are these forms valid in another state?**

It depends on the law of the other state. Most state laws recognize advance directives made somewhere else.

**9. How can I get advance directive forms for another state?**

Contact Caring Connections (NHPCO) at 1-800-658-8898 or on the Internet at: <http://www.caringinfo.org>.

**10. To whom should I give copies of my advance directive?**

Give copies to your doctor, your health care agent and backup agent(s), hospital or nursing home if you will be staying there, and family members or friends who should know of your wishes. Consider carrying a card in your wallet saying you have an advance directive and who to contact.

**11. Does the federal law on medical records privacy (HIPAA) require special language about my health care agent?**

Special language is not required, but it is prudent. Language about HIPAA has been incorporated into the form.

**12. Can my health care agent or my family decide treatment issues differently from what I wrote?**

It depends on how much flexibility you want to give. Some people want to give family members or others flexibility in applying the living will. Other people want it followed very strictly. Say what you want in Part II, Paragraph G.

**13. Can my doctor override my living will?**

Usually, no. However, a doctor is not required to provide a “medically ineffective” treatment even if a living will asks for it.

**14. If I have an advance directive, do I also need an Emergency Medical Services Palliative Care/Do Not Resuscitate Order?**

Yes. If you **don't** want ambulance personnel to try to resuscitate you in the event of cardiac or respiratory arrest, you must have an EMS Palliative Care/DNR Order signed by your doctor.

---

**15. Does the EMS Palliative Care/DNR Order have to be in a particular form?**

Yes. Ambulance personnel have very little time to evaluate the situation and act appropriately. So, it is not practical to ask them to interpret documents that may vary in form and content. Instead, a standardized order form has been developed. Have your doctor or health care facility contact the Maryland Institute for Emergency Medical Services System at (410) 706-4367 to obtain information on EMS Palliative Care/DNR Orders.

**16. Can I fill out a form to become an organ donor?**

Yes. Use Part I of the "After My Death" form.

**17. What about donating my body for medical education or research?**

Part II of the "After My Death" form is a general statement of these wishes. The State Anatomy Board has a specific donation program, with a pre-registration form available. Call the Anatomy Board at 1-877-463-3464 for that form and additional information.

**MARYLAND ADVANCE DIRECTIVE:  
PLANNING FOR FUTURE HEALTH CARE DECISIONS**

**By:** \_\_\_\_\_ **Date of Birth:** \_\_\_\_\_  
(Print Name) (Month/Day/Year)

Using this advance directive form to do health care planning is completely optional. Other forms are also valid in Maryland. No matter what form you use, talk to your family and others close to you about your wishes.

This form has two parts to state your wishes, and a third part for needed signatures. Part I of this form lets you answer this question: If you cannot (or do not want to) make your own health care decisions, who do you want to make them for you? The person you pick is called your health care agent. **Make sure you talk to your health care agent (and any back-up agents) about this important role.** Part II lets you write your preferences about efforts to extend your life in three situations: terminal condition, persistent vegetative state, and end-stage condition. In addition to your health care planning decisions, you can choose to become an organ donor after your death by filling out the form for that too.

You can fill out Parts I and II of this form, or only Part I, or only Part II. Use the form to reflect your wishes then sign in front of two witnesses (Part III). If your wishes change, make a new advance directive.

Make sure you give a copy of the completed form to your health care agent, your doctor, and others who might need it. Keep a copy at home in a place where someone can get it if needed. Review what you have written periodically.

**D. How my Agent is to Decide Specific Issues**

I trust my agent’s judgment. My agent should look first to see if there is anything in Part II of this advance directive that helps decide the issue. Then, my agent should think about the conversations we have had, my religious and other beliefs and values, my personality, and how I handled medical and other important issues in the past. If what I would decide is still unclear, then my agent is to make decisions for me that my agent believes are in my best interest. In doing so, my agent should consider the benefits, burdens, and risks of the choices presented by my doctors.

**E. People My Agent Should Consult**

(Optional; form valid if left blank)

In making important decisions on my behalf, I encourage my agent to consult with the following people. By filling this in, I do not intend to limit the number of people with whom my agent might want to consult or my agent’s power to make decisions.

2. Once my agent has full power to act under this document, my agent may request, receive, and review any information, oral or written, regarding my physical or mental health, including, but not limited to, medical and hospital records and other protected health information, and consent to disclosure of this information.
3. For all purposes related to this document, my agent is my personal representative under the Health Insurance Portability and Accountability Act (HIPAA). My agent may sign, as my personal representative, any release forms or other HIPAA-related materials.

\_\_\_\_\_

**If the only thing you want to do is select a health care agent, skip Part II. Go to Part III to sign and have the advance directive witnessed. If you also want to write your treatment preferences, go to Part II. Also consider becoming an organ donor, using the separate form for that.**

**PART II: TREATMENT PREFERENCES (“LIVING WILL”)**

## Advance Directive Information Sheet

Everyone has the right to make personal decisions about health care. Doctors ask whether you will accept a treatment by discussing the risks and benefits and working with you to decide. But what if you can no longer make your own decisions? Anyone can wind up hurt or sick and unable to make decisions about medical treatments. An advance directive speaks for you if you are unable to, and helps make sure your religious and personal beliefs will be respected. It is a useful legal document for an adult of any age to plan for future health care needs. While no one is required to have an advance directive, it is smart to think ahead and make a plan now. If you don't have an advance directive and late you can't speak for yourself, then usually your loved ones by helping to prevent misunderstandings or arguments about your care.

### What can you do in an advance directive?

An advance directive allows you to decide who you want to make health care decisions for you if you are unable to do so yourself. You can also use it to say what kinds of treatments you do or do not want, especially the treatments often used in a medical emergency or near the end of a person's life.

#### 1. Health Care Agent.

Someone you name to make decisions about your health care is called a "health care agent" (sometimes also called a "durable power of attorney for health care," but, unlike other powers of attorney, this is not about money). You can name a family member or someone else. This person has the authority to see that doctors and other health care providers give you the type of care you want, and that they do not give you treatment against your wishes. Pick someone you trust to make these kinds of serious decisions and talk to this person, to make sure he or she understands and is willing to accept this responsibility.

#### 2. Health Care Instructions.

You can let providers know what treatments you want to have or not to have. (Sometimes this is called a "living will," but it has nothing to do with an ordinary will about property.) Examples of the types of treatment you might decide about are:

- a. Life support – such as breathing with a ventilator,
- b. Efforts to revive a stopped heart or breathing (CPR),
- c. Feeding through tubes inserted into the body, and
- d. Medicine for pain relief.

Ask your doctor for more information about these treatments. Think about how, if you become badly injured or seriously ill, treatments like these fit in with your goals, beliefs, and values.

---

## **How do you prepare an advance directive?**

Begin by talking things over, if you want, with family members, close friends, your doctor, or a religious advisor. Many people go to a lawyer to have an advance directive prepared. There is no one form that must be used. You can even make up your own advance directive document.

To make your advance directive valid, it must be signed by you in the presence of two witnesses, who will also sign. If you name a health care agent, make sure that person is not a witness. Maryland law does not require the document to be notarized. You should give a copy of your advance directive to your doctor, who will keep it in your medical file, and to others you trust to have it available when needed. Copies are just as valid as the originals.

You can also make a valid advance directive by talking to your doctor in front of a witness.

## **When would your advance directive take effect?**

Usually, your advance directive would take effect when your doctor certifies in writing that you are not capable of making a decision about your care. If your advance directive contains health care instructions, they will take effect depending on your medical condition at the time. If you name a health care agent, you should make clear in the advance directive when you want the agent to be able to make decisions for you.

## **Can you change your advance directive?**

Yes, you can change or take back your advance directive at any time. The most recent one will count.

## **Where can you get forms and more information about advance directives?**

There are many places to get forms, including medical, religious, aging assistance, and legal organizations. Three places are shown below, but these are just examples. Any of these forms are valid in Maryland, but not all may be in keeping with your beliefs and values. Your advance directive does not have to be on any particular form.
